DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The expression "a product oil in form of condensate as well as gas" in lines 6-7 of claim 1 renders the claim indefinite because it is unclear if the product oil and gas in the expression are produced from the oil and gases in line 4 of the claim or it is from where else.

The expression "oil vapour, gas and coke, and gases and vapours" in line 4-5 of claim 1 renders the claim indefinite because it is unclear the difference between "oil vapour" and "vapours" and the difference between "gas" and "gaseous".

The expression "adding gas or water vapour for reducing the partial pressure" in line 11 of claim 1 renders the claimed indefinite because it is unclear if the gas or water vapor is added to the mixer or the condenser.

Claim 1 recites the limitation "the non condensed gases" in line 12 of the claim. There is insufficient antecedent basis for this limitation in the claim.

The expression "returned product gas" in line 2 of claim 3 renders the claim indefinite because it is unclear where the product gas coming from.

Claim 5 recites the limitation "the separated highly boiling fraction" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Art Unit: 1797

Claim 5 recites the limitation "the gas/oil mixture" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

Claims 1-8 are would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
